

Isha Atulbhai Bagadiya

Software Developer

  Portfolio

Email: bagadiyaisha@gmail.com

Phone: +91 8735978178

SKILLS

Languages	JavaScript, TypeScript, HTML5, CSS3
Frameworks	React.js, Next.js (App Router), React Native (Expo), Tailwind CSS, ShadCN, Framer Motion, GSAP
Backend and APIs	Node.js, REST APIs, CRUD operations, LLM API Integration
Database	MongoDB
Web3	Wallet integration
Other	Sanity CMS, Google Blockly, Chart.js, Git, GitHub, Vercel, Vercel-Sitemap, Figma

EXPERIENCE

Lampros Tech | Ahmedabad, India

Feb 2024 - Mar 2026

Software Development Engineer

- Built and maintained mobile-responsive UIs using React.js, Next.js, and Tailwind CSS across 10+ projects. ([Udonswap](#), [MetaTLDS](#), [Vaults](#), [ArbitrumWatch](#), [Smart Disperse](#))
- Implemented smooth animations using GSAP and Framer Motion. ([ChoraClub](#), [TriggerX-workspace](#), [FlowForge](#)).
- Connected the frontend to a database, integrated LLM-powered features, and enabled Web3 wallet interactions; contributed to a hackathon-winning project. ([Tronique](#) – Winner, Tron Hackathon).
- Improved frontend performance from 42%(D-Grade) to 82%(B-Grade) and reduced blocking time from 11.9s to 136ms by reviewing and optimizing a production application. ([DAO CPI](#))
- Documented a clear Frontend Optimisation SOP covering performance practices, tools, and workflows ([Optimization SOP](#)).
- Integrated Google Blockly for drag-and-drop automation workflows and Sanity CMS for dynamic content management, while adopting reusable, component-based coding practices ([TriggerX](#)).
- Built a cross-platform mobile application using React Native (Expo Go) with WebView integration as part of a buildathon-winning project ([Spend In](#)).
- Participated in **ETHGlobal Delhi (IRL)**, **EthMumbai** and the **Arbitrum Bengaluru Hacker House**, collaborating with cross-functional teams to design, build, and iterate on Web3-focused applications.

TravelTraces | Ahmedabad, India

Apr 2026

Freelance Developer

- Built a mobile-responsive UI using Next.js and Tailwind CSS, ensuring a seamless user experience across devices.
- Integrated Sanity Studio as an admin panel to manage trips, blogs, reviews, and reels with dynamic content.
- Managed end-to-end project flow, including client communication, requirement analysis, and feature delivery.

PROJECTS

TriggerX – Automate Everything Onchain

[Live](#) [Code](#)

- Developed a Web3 automation platform with drag-and-drop workflows using Google Blockly, integrated Sanity CMS for dynamic content, and built complex state-driven forms.
- Implemented interactive features, including a canvas-based game and wallet integration, and led migration from React.js to Next.js to improve performance and scalability.

FlowForge –Workflow Automation Builder

[Live](#) [Code](#)

- Developed a node-based visual workflow builder with an interactive UI.
- Integrated LLM-powered flow generation for AI-assisted automation.

TravelTraces – Trusted Tour Operator

[Live](#) [Code](#)

- Built a mobile-responsive UI and integrated Sanity Studio for managing trips, blogs, and reviews.
- Managed end-to-end development including client communication and feature delivery.

EDUCATION

Bachelor of Engineering in Information Technology

L.D. College of Engineering, Ahmedabad

2020 – 2024

CGPA: 9.20

Higher Secondary Certificate (XII), Gujarat Board

Ultravision Academy, Surendranagar

2020

87%
